

Sleepwalkin'

Miller, Rhett

She was a genius
She won awards and stuff, I was intimidated
She had a prominent nose
She took off all her clothes, I was infatuated

The love we'd share would go nowhere
But it would be nonetheless
The time we spent
I don't know where it went

We took the monorail
We had a pint of ale, I got a little buzz on
Her movie made me cry
I could not tell her why might be the pills I was on

I long to be the man
That she wanted to be with
The time we spent
I don't know where it went

Don't mind me, I'm just sleepwalkin', sleepwalkin'
Don't mind me

The night we broke it off I had a lousy cough
I had no strength to argue
I knew I'd rue the day I let you slip away
My genius, where are you?

The love we had was small and sad
Like everything in my life
The time we spent
I don't know where it went

Don't mind me, I'm just sleepwalkin', sleepwalkin'
Don't mind me, I'm just sleepwalkin', sleepwalkin'
Don't mind me, I'm just sleepwalkin', sleepwalkin'
Don't mind me
