

You can only cut it once so measure twice  
When you shake a hand, look em in their eyes  
Everything comes back around  
So leave it better than you found it  
And never be too proud to take advice

When you got time to give  
Go ahead and give it  
When the good Lord throws a curve  
Just try your best to hit it  
As fast as you can blink your eye  
These days are gonna pass you by  
So if I could tell you one thing bout this life  
Don't forget to live it

Try to call your mom least once a week  
Don't confuse the want for what you need  
Keep your nose in the good book  
And be careful where you look  
As you figure out just who you're gonna be

When you got time to give  
Go ahead and give it  
When the good Lord throws a curve  
Just try your best to hit it  
As fast as you can blink your eye  
These days are gonna pass you by  
So if I could tell you one thing bout this life  
Don't forget to live it  
Don't forget to live it

There's always plenty more that I could tell  
And plenty more I'm trying to figure out myself  
But we only get one ride  
A bunch of lows, a bunch of highs  
So here's somewhere to start to do it well

When you got time to give  
Go ahead and give it  
When the good Lord throws a curve  
Just try your best to hit it  
As fast as you can blink your eye  
These days are gonna pass you by  
So if I could tell you one thing bout this life  
Don't forget to live it
