

## She's With Me

Rhino Bucket

Well I watched from a distance  
Yeah, I checked you from afar  
When you spoke I tried to listen  
But what you said was so bizarre  
You claimed you were a sinner  
Yeah, an angel soaked in sin  
But when you cried off all your make up  
I could see the pain within  
I don't care what they said to you  
I don't care if you thought it was true  
All I know is what you are to me

And all I want to say is that... She's With Me  
So you told me your life story  
And the ending wasn't nice  
But when I tried to tell you different  
You turned just as cold as ice  
The world is not your oyster  
And I'm no shining knight  
But I'll never let them hurt you  
I'm here is they want to fight
