Crash

Rhodes

Let me hide in my dreams which
Cruel life, gives us still so
Take me away, let me live a lie
Silent nights, apparition
Let there be, no division
So, take me away, leave me higher than rain

But I crash, when the light hits
Crash, like a comet
How far must I fall?

Every day it's the same thing I go through
Brace for pain as I wake up without you
So take me away, let me dream a while

But I crash, when the light hits
Crash like a comet
How far must I fall?

If I ever loved you, if I ever loved you, call out
If I ever loved you, if I ever loved you, call out

All I've known, burned down
Every word, burned down

But I crash, when the light hits
Crash like a comet

If I ever loved you, if I ever loved you, call out
If I ever loved you, if I ever loved you, call out
