

# Even When It Hurts

Rhodes

You've been sleeping in a different room  
I don't feel like I've been talking to you  
I wanna kiss you in the morning  
Like the sunlight shatters over you  
'Cause life can get complicated  
When everybody's watching you  
And I've been self medicating  
Trying to find a way to talk to you

How we ever gonna make this work?  
How we ever gonna keep this song alive?  
If we don't fight  
If we don't cry  
And if we don't try

Even when it hurts, I want you  
Nothing seems to work, I need you  
Days and nights are blurred  
I wanna be right by your side

I wish I never saw you cry  
But I never want to filter life  
I'm gonna hold you in the morning  
I'd do anything to dry those eyes  
I don't want to be suffocated  
By the pressures of a modern life  
And as everything around us changes  
There will always be you and I

'Cause even when it hurts, I want you  
Nothing seems to work, I need you  
Days and nights are blurred  
I wanna be right by your side  
'Cause even when it hurts  
Even when it hurts  
Even when it hurts  
I wanna be right by your side

'Cause I've been going crazy  
I've been going out of my mind  
Giving it all of my time  
Tryin' to live all of this life  
All I wanna do is  
Press your skin against mine  
I wanna be right by your side  
And I want you, right by mine

How we ever gonna make this work?  
How we ever gonna keep this song alive?  
If we don't fight  
If we don't cry  
And if we don't try

'Cause even when it hurts, I want you  
Nothing seems to work, I need you  
Days and nights are blurred  
I wanna be right by your side

Even when it hurts  
Even when it hurts  
Even when it hurts  
I wanna be right by your side  
'Cause even when it hurts  
I want you right by my side
