

## Smile

Rhodes

I thought I saw a little light in the dark  
To take a clean shore  
It's like the universe says I've got a heart  
Too many false stars  
They got me running round, it's so pitiful  
Tryna keep up with what they say  
I find it hard to sleep  
And I don't wanna keep you awake

I need your smile, I've been losing my head  
Now for a while, but I'd do it over and over again  
For your smile, you make it all go away  
Just for a while, and I'd do it over and over again

Smile  
And I'd do it over and over again  
Smile  
And I'd do it over and over again

I noticed everything where we were apart  
I saw the bare scars  
Now you're around me, I see everything brighter  
I see your gold heart

But they had me running round, it was difficult  
Tryna keep up with what they said  
I find it hard to sleep  
And I don't wanna keep you awake

I need your smile, I've been losing my head  
Now for a while, but I'd do it over and over again  
For your smile, you make it all go away  
Just for a while, and I'd do it over and over again

Smile  
And I'd do it over and over again  
Smile  
And I'd do it over and over again

Oh-oh, it's so much better now  
I'm feeling better now  
Oh-oh, it's so much better now

I need your smile, I've been losing my head  
Now for a while, but I'd do it over and over again  
For your smile, you make it all go away  
Just for a while, and I'd do it over and over again
