

# This Shouldn't Work

Rhodes

You said I was unusual  
A complicated man  
I drink too much, mess things up  
The kind of man you cannot stand  
Ooh, we were high on something in the air  
I think we listened to 'Oh Mandy' by The Spinto Band

We were lighting it up on a low single bed  
You held out your hand with a lit cigarette  
Wrapped your arms 'round my neck, pulled me down close  
And now we're face to face

I never knew I had love, now I know  
I never knew I had love, now I know  
I know that this shouldn't work but it does  
I know that this shouldn't work but it does

You said it was unusual  
To kiss me laying down  
Never gave your heart, I'm all locked out  
Alone inside your arms  
Ooh, I guess you did not think I'd understand  
I think we listened to 'Oh Mandy' by The Spinto Band

We were lighting it up on a low single bed  
You held out your hand with a lit cigarette  
Wrapped your arms 'round my neck, pulled me down close  
And now we're face to face

I never knew I had love, now I know  
I never knew I had love, now I know  
I know that this shouldn't work but it does  
I know that this shouldn't work but it does

So stay now, you're like no one else around  
Hold me close, hold me close  
So stay now, wrap your arms around me now  
Hold me close, hold me close

I never knew I had love  
I never knew I had love, no

I never knew I had love  
I never knew I had love, no

I know that this shouldn't work but it does  
I know that this shouldn't work but it does  
I know that this shouldn't work but it does
