

Weightless

Rhodes

Last night I had a dream about you
It woke me up I never knew I missed you
I swear to god it isn't what I'm used to
And I'm going out of my mind

In this dream we were flying so high
Galaxies and Saturn rings in your eyes
You disappeared and left me in the night sky
And I just don't understand why

You just left me weightless
Could've made it painless
Knowing I can't change this
Waking up alone

Looking back I guess the bitter truth is
I was young, I never thought I'd lose this
If I could I would give it all
'Cause I'm going out of my mind

I should have listened when you needed me
'Cause, all you needed was my honesty
And, I was half the man you saw in me
But I want you to see that I've changed

You just left me weightless
Could've made it painless
Knowing I can't change this
Waking up alone
Please don't leave me weightless
Even though you're blameless
Only you can save this
It's out of my control

And I know that I could go on waiting
Reaching out for the hand that'll save me
Lookin' down on the world as it's fading
In to dark
Wondering where you are
Tonight
I can't catch my breath
'Cause I feel like I've lost it all
I'm drifting on my own

You just left me weightless
Could've made it painless
Knowing I can't change this
Waking up alone
Please don't leave me weightless
Even though you're blameless
Only you can save this
It's out of my control
'Cause you just left me weightless
You just left me weightless
