

I've Forgotten You

Rhonda Vincent

Well it's snowing in Miami
And it's hailing in LA
Money's growing like green apples
On the trees

I've been hanging out with Elvis, yeah
And all my bills are paid
And they're giving away Cadillacs for free
The whole world gets along

And I haven't thought about you once
Since you've been gone

[Chorus]

I've forgotten you
I've forgotten
Every single time you kissed me
I don't miss it like you think I do
I've forgotten you
How you held me and it felt like
It's what you were born to do
If I lie enough it might come true
I've forgotten you

There's a million things about you
I don't remember anymore
Like that time we got that cabin up in Boulder
I don't remember how you kissed me
Up against that old oak door

Ain't it funny
How things fade right when it's over
Yeah, I'm doing fine
I sleep just like a little baby every night

Break

[Chorus]

Can't you see how I've moved on
No, I haven't thought about you once
Since you've been gone

[Chorus]
