

When the Grass Grows Over Me

Rhonda Vincent

When you left I thought that I would soon be over you
Even told myself that I would find somebody new
Time and tears have come and gone but not your memory
For I'll be over you when the grass grows over me

Yes I'll be over you when you're standing over me
And as you look down at the cold cold ground I'm sleeping in
Don't expect to hear me say that I still love you dear
For I'll be over you when the grass grows over me

Even when my eyes are closed I keep on seeing you
And each minute I'm alive I'm hurting through and through
And as long as I live I know I won't be free
For I'll be over you when the grass grows over me

Yes I'll be over you when you're standing over me
And as you look down at the cold cold ground I'm sleeping in
Don't expect to hear me say that I still love you dear
For I'll be over you when the grass grows over me
Yes I'll be over you when the grass grows over me
