

Fire

Rhyme

Give me your tired eyes
Come alone
Show me your precious side
I'm alone
Give me some pressure babe
It feels so right
I'll give you some pressure babe, a quiet storm

Can you feel my fire deep inside?
Can you feel my fire growing high?
Can you feel my fire deep inside?
Can you feel my fire growing high?

Just give me your tongue baby, show me words
Sing me a song babe, kill me right
Don't do me wrong
Hear me right
Don't do me wrong, baby, hit me right

Can you feel my fire deep inside?
Can you feel my fire growing high?
Can you feel my fire deep inside?
Can you feel my fire growing high?

Give me your green eyes, you humble me
I'll give you my green heart, here in me
I'll give you my voice
I'll give you my voice, don't hear me wrong

Can you feel my fire deep inside?
Can you feel my fire growing high?
Can you feel my fire deep inside?
Can you feel my fire growing high?
