

Softly

Rhye

You really love to play so softly
It really hurts to say I crave that
I really want you to know I hear you
I really want you to come with me, ooh

To run away, where are we now?
To run away, where are we now?
So until you feel fade

How did we make so softly
How I knew where you were
I made you cry
I really want you to know I feel you
I really want you to know I'll heal you

To run away, where are we now?
To run away, (don't you feel) where are we now?
So until you feel fade
To run away, where are we now?
So until you feel fade
To run away, where are we now?
So until you feel fade

Just fall this way
Feeling love this way
Feeling love this way
Feeling love this way
