

Lonely As Love

Rhys Lewis

We both know how
To put things right
But we're too cold
To apologise
So we fall asleep
And don't say goodnight
There's nothing as lonely as love sometimes

We used talk
Talk so much
But these silent days
They making us
These strangers in
Each others eye
There's nothing as lonely as love sometimes

Well, I know we've lost our way
But I know we'll find it again
'Cause I know we'll get through the pain
Together, together

So hold me close
Let's not hide
My shoulder's here
If you need to cry
So please don't keep
Your tears inside
'Cause there's nothing as lonely as love sometimes

Well, I know we've lost our way
But I know we'll find it again
'Cause I know we'll get through the pain
Together, together

'Cause be both know how
To put things right
So let's start now
And end this fight
And fall asleep
And keep tonight
'Cause there's nothing as lonely as love sometimes
'Cause there's nothing as lonely as love sometimes
'Cause there's nothing as lonely as love sometimes
