

# Better Be Over

Rhys

I don't want another go on this rollercoaster ride  
Too many ups and downs have made me finally decide  
So don't forget to take what's yours, make sure to leave what's mine  
Never mind what I'll be up to, I'll be fine

So let's say you're not the one  
Go, go back to where you're from  
I don't need your troubles baby  
Run away, run away  
Don't focus on what used to be  
Shake it off and set me free  
I don't need your troubles baby  
Run away, run away

This time it better be over  
(Run away, run away)  
This time it better be over  
(Better be over and done)  
This time it better be over  
(Run away, run away)  
This time it better be over  
(Better be over and done, done, done)

I don't need your body, baby, I'll get another one  
Making out in your backseat, yeah, was never all that fun  
I'm too young to waste my time, too young to stick around  
So, don't wait for me tonight, I won't be back

So let's say you're not the one  
Go, go back to where you're from  
I don't need your troubles baby  
Run away, run away  
Don't focus on what used to be  
Shake it off and set me free  
I don't need your troubles baby  
Run away, run away

This time it better be over  
(Run away, run away)  
This time it better be over  
(Better be over and done)  
This time it better be over  
(Run away, run away)  
This time it better be over  
(Better be over and done, done, done)

Never have I ever found a glue that really sticks  
Never have I ever... glue that really sticks  
Never have I ever found a glue that really sticks  
Never have I ever... glue that really sticks

This time it better be over  
(Run away, run away)  
This time it better be over  
(Better be over and done)  
This time it better be over  
(Run away, run away)

This time it better be over  
(Better be over and done, done, done)

This time it better...  
This time it better...

This time it better be over  
(Run away, run away)  
This time it better be over  
(Better be over and done, done, done)
