

Heathrow

Rhys

I think it was May
Staring at the map of the world on your wall
And you showed me the place
The city of your dreams where you'll be in the fall
I was chewing my nails
Remember myself nervously touching my hair
And I think it was straight
Cause I thought you liked me better that way

And I sat for hours
Copy pasting quotes to my notes like I wrote them
And I sent them
And I still shutter
Thinking bout the posts, and I hope you forgot them

Heathrow
Gotta catch the first flight out of this place
Seein' you
God it gave me flashbacks from those days
And I'm a whole different person
I hope that you noticed
I'm not even broken anymore
Heathrow
Get me on the first flight
I wasn't ready for him last night

So I looked away
Took a sharp turn, ended up in the mall
Everything was on sale
I can't believe you're here, and I almost said hi
Oh, but then I just failed
That's not the situation I saw in my mind
I haven't seen your eyes since I was 21
I ran away on instinct I was overcome

But I still shutter
Thinking bout the past, and I hope you've forgotten

Heathrow
Gotta catch the first flight out of this place
Seein' you
God it gave me flashbacks from those days
Ima whole different person
I hope that you noticed
I'm not even broken anymore
Heathrow
Get me on the first flight
I wasn't ready for him last night

Can't ignore you
Cus you're hard proof
Of what I was like
Last I saw you
I adored you
That's another life
Can't ignore you
Cus you're hard proof

Of what I was like
Last I saw you
I adored you
That's another life

Heathrow
Gotta catch the first flight out of this place
Seein' you
God it gave me flashbacks from those days
I'm a whole different person
I hope that you noticed
I'm not even broken anymore
Heathrow
Get me on the first flight
I wasn't ready for him last night
