Wild

Rhys

I didn't know that seat was taken
I wouldn't have gone so deep
If it was up to me
We should have loved in moderation
But now we are both wasted at a place we hate

'Cause at first I thought that you'd be fun to know
But now it's clear to me that we're dysfunctional
The things you gave to me, I gave you back tenfold
But now we are both wasted at a place we hate

How did you get your hands all over my life?
And why was my heartbroken half of the time?
And when did I stop seeing love in your eyes?
After everything you put me through
The things that I'd still do for you
It's wild, wild
It's wild, wild

Is it okay to miss your body?
But not want to fix your problems
I'm too tired to solve 'em
I'm not the best at saying sorry
But you're great at fighting
And so am I

'Cause at first I thought that you'd be fun to know
But now it's clear to me that we're dysfunctional
The things you gave to me, I gave you back tenfold
But now we are both wasted and I can't explain

How did you get your hands all over my life?
And why was my heartbroken half of the time?
And when did I stop seeing love in your eyes?
After everything you put me through
The things that I'd still do for you
It's wild, wild
It's wild, wild

Oh, it's wild what you do to me
Oh, you could call it love but I don't agree
God, I always hate when you're mad at me
Menace from enemies
That's what you do to me

How did you get your hands all over my life?
And why was my heartbroken half of the time?
And when did I stop seeing love in your eyes?
After everything you put me through
The things that I'd still do for you
It's wild, wild
It's wild, wild
