

## Between The Bad

Ria Mae

I am delighted, I am indebted  
These are the words you wanted to hear  
Going in circles, payback is forever  
I can't go on living here

I can't continue to live between the bad  
Closer and closer, the best is in the past

It tears out my heart now as it flows through my veins  
It forms in my head still I've got nothing to say  
How do you forget so easily?

And I can't continue to live between the bad  
Closer and closer, the best is in the past

Why did you build me and lift me just to push me down?  
You used to promised I'd become free  
Did you change your mind now?  
And all that matters is selfish tonight  
I can't take this in my life  
And we shatter, too broken to fight

I can't continue to live between the bad  
Closer and closer, the best is in the past  
I can't continue to live between the bad  
Closer and closer, the best is in the past
