Broken

Ria Mae

There we were making love in the streets
Taking over my bed, seeing all of the signs
When we both weren't afraid of each other
In the back of the party drinking bottles of wine

Don't look back you said, make the pain worth it
Don't look back you said, you said

You're my favourite way to die
Your chemicals still make me high
My brain says no and I get too close
Don't make me give it up

There we were fighting hard in the streets
Screaming harder as if we could solve it in a night
Wake the neighbors we don't care what it seems
Scaring our friends disappearing all night

Don't look back you said, make the pain worth it
Don't look back you said, you said

You're my favourite way to die
Your chemicals still make me high
My brain says no and I get too close
Don't make me give it up

I don't want to argue
I don't need to be right
Your words streaming quicker
This hurt turning into a fight
I hardly recognize me
When you and I start to shout
I find the toughest words to throw at ya
Roughest way to go at ya
Its fucked up between us

I act like someone else when you're around me
I think the darkest thoughts when you're right next to me
Its hard not to take it so damn personally
I'm not sure its worth it
I'm not sure you're worth it

You're my favourite way to die
Your chemicals still make me high
My brain says no and I get too close
Don't make me give it up

You're my favourite way to die
Your chemicals still make me high
My brain says no and I get too close
Don't make me give it up
And I get too close
Don't make me give it up
And I get too close
Don't make me give it up
