

Please Don't Go

Ria Mae

I keep losing sleep, if I'm honest
I keep losing peace when I'm not with you
Doesn't mean a thing what we call it
If we never started, it's never through

I got used to your love, I got used to it
It was always enough
Please don't go

We had our ups and downs, sometimes we scared ourselves
I don't want no else
Please don't go
I'm feeling sick right now, don't say the words out loud
Why can't we work this out?
Please don't go

We both keep our cards way too close to the table
We should say the things that we've never been able
Know I let you down and I hate that I hurt you
Guess it comes from all of the things that we been through

I got used to your love, I got used to it
It was always enough
Please don't go

We had our ups and downs, sometimes we scared ourselves
I don't want no else
Please don't go
I'm feeling sick right now, don't say the words out loud
Why can't we work this out?
Please don't go

Please don't go
Please don't go

Please don't go

We had our ups and downs, sometimes we scared ourselves
I don't want no else
Please don't go
I'm feeling sick right now, don't say the words out loud
Why can't we work this out?
Please don't go

Please don't go
Please don't go
