

Swoon

Ria Mae

Dance, dance, dance all around the words
I don't ever say what I wish I heard
I can't even lie, I won't ever say it first
Dance, dance, dance all around the feels
I don't ever act like I know it's real
I can't even lie, don't know how I'ma deal

All my mental energy is being used to lie
All my mental energy is tired

I'll never get over you
I'll never get over the way you make me swoon
I'll never get over you
I'll never get over the way you make me swoon

Lie, lie, lie like I'll be alright
Like I don't picture you every night
Wishing that you were sleeping somewhere close
Rush, rush, rush to the worst case
Scared you won't reciprocate
How could you if I never tell you, though?

All my mental energy is being used to lie
All my mental energy is tired

I'll never get over you
I'll never get over the way you make me swoon
I'll never get over you
I'll never get over the way you make me swoon

Swoon, swoon

All my mental energy is being used to lie
All my mental energy is tired
All my mental energy is being used to lie
All my mental energy is tired (Tired)

I'll never get over you (I'll never get over you)
I'll never get over the way you make me swoon
I'll never get over you
I'll never get over the way you make me swoon

Swoon, swoon
Swoon, swoon
Swoon
