

Too Close

Ria Mae

Midnight, you're still with your friends
I can see you in the line, and I'm back at the end
You always hated this place
Yet I say I'm not surprised that I'm seeing your face

And, baby, don't jump to conclusions with me tonight, yeah
'Cause you know I'm good, I just came here to dance the night away

Don't wanna cry no more
All of the back and forth, and
Baby, I can't ignore
The way I feel

'Cause I can't hide it
I can't hide it
And I can't get you close
'Cause I'll have my hands on you
I can't fight it
'Cause if I get too close
Then I'll be all over you
Because we all get a little bit high sometimes
When I'm with you
I can't hide it
I can't hide it
And I know you want me too

Three shots and it's taken me back
We were singing "Fast Car" in your old Cadillac, yeah
And you always hated this place
Yet I say I'm not surprised that I'm seeing your face

Baby, don't jump to conclusions with me tonight, ay
'Cause you know I'm good, I just came here to drink the night away

Don't wanna cry no more
All of the back and forth
Baby, I can't ignore
The way I feel

'Cause I can't hide it
I can't hide it
And I can't get you close
'Cause I'll have my hands on you
I can't fight it
'Cause if I get too close
Then I'll be all over you
Because we all get a little bit high sometimes
When I'm with you
I can't hide it
I can't hide it
And I know you want me too

Baby, get close to me
Just like we used to be
Wanna get close to you
Just like we used to do
Baby, get close to me

Just like we used to be
Wanna get close to you
Just like we used to do

'Cause I can't hide it
I can't hide it
And I can't get you close
'Cause I'll have my hands on you
I can't fight it
'Cause if I get too close
Then I'll be all over you
Because we all get a little bit high sometimes
When I'm with you
I can't hide it
I can't hide it
And I know you want me too
