

# Skyscraper

Rialto

In a skyscraper - in a skyscraper's where I want to live: with  
no elevator, at the top of the stairs where nobody else is. I don't  
want any trouble in my little bubble...

Up above the clouds, looking at the crowds down on the ground.  
Watching from the steeple, all the little people running round.  
Lock the door behind me, no-one's gonna find me to bring me down.

In a skyscraper, we'll send for the papers every now and then.  
When it's a bit safer, when it's a bit safe we might come down  
again. We don't want any trouble in our little bubble...

Up above the clouds, looking at the crowds down on the ground.  
Watching from the steeple, all the little people running round.  
Lock the door behind us, no-one's gonna find us to bring us down.  
Oh-oh-oh-oh, in a skyscraper, in a skyscraper. In a skyscraper,  
in a skyscraper.

Up above the clouds, looking at the crowds down on the ground.  
Watching from the steeple, all the little people running round.  
Lock the door behind us, no-one's gonna find us to bring us down.  
Oh-oh-oh-oh, in a skyscraper, in a skyscraper. In a skyscraper,  
in a skyscraper
