Yeah aye
She spread her legs and put her ankles where her shoulders at
We keeping em running running running
Shaking that ass staring me down like I ain't notice that
Keep it a hunnit hunnitt hunnitt
These niggas balled out no team and end up getting sacked
We keeping em running running running
I hear them niggas got that cheddar but them niggas rats
Keep it a hunnit hunnitt hunnitt

Lord raiden
I'm really true and a vet in the game
Know I'm still the truth never betting with lames
With these lines I am primetime
I'm next with the fame
I'm the architect to all the new effects with the chains
What you mean homie
Riding with the coupe with the top down
She like to give up some road head with her top down
Grinding out the coupe
Notice riding with my crew
Focus I am just the truth
Keep it tall no manute
Boiiiii listen

Yeah aye
She spread her legs and put her ankles where her shoulders at
We keeping em running running running
Shaking that ass staring me down like I ain't notice that
Keep it a hunnit hunnitt hunnitt

These niggas balled out no team and end up getting sacked
We keeping em running running running
I hear them niggas got that cheddar but them niggas rats
Keep it a hundred
I keep it a hundred

Chief and keeping them stacking the money
Rocking the vision and acting I'm gunning
Never the lease with the pack and I'm hunting
Evel Knievel the bike and I'm stunting
Staying persistent with rapping I'm cunning
Beating the chicha I'm keeping her coming
A lot these haters be thinking they something
Man I run the shit
No Co defense
This my relief
Rated over ten
Post to win
These now my new streets
I been the man since day one
There's no need to front
Action ego run
I'm the elder God to your sons
Done
