

Jumpy

Rich Brian

Aye, put 'em in pain
I got the melodies shakin' their cranium crazy
But this time man I'm not gon' sing
Your favorite line is you never got time for your friends
But the thing is that you not a friend
I set my foot in the states
I was sixteen years old from Jakarta, my prayer got range
Take the security out of my budgeting
I did not get here from playin' it safe

Can't do the wedding ring
If you the goat that mean I turn into the crocodile
'Partment suit for the Titans
I ain't got a blanket, we gotta skip the cuddlin'
Got eighty-seven points on that deal
Got mom a villa off of my ideas
Your top five call 'em all my peers
Fuck off that pussy not worth my tears
I'm chasin' that check and not feelings
I check on my Hinge and not one of these bitches, okay
I'm still in love with the smell of the stu'
You just tasted the gluten and started to change
My city drivin' on right seat
So fuck all that left shit, don't tell me to stay in my lane
Stand out the crowd with my chest out I fuck with me
I don't expect you to treat me the same

I fell in love with the manifest
Not talking cannabis when I say who want the smoke
I'm not an analyst it's clear to see
That you shaking like got to piss or on a boat
Ric Flair, nature boy, animal, untamed
Hank Hill, bitch, all my product is propane
Be real how my flow water I need gills
You slip like banana peels washed up like some sea shells
Bitch, okay let me paint the picture
Murder scene when I rap like I'm Jack the Ripper
Courtesy of the fact that I'm really that nigga
Don't gotta consider like medicine my opps is all bitter
Funny 'cause a nigga was the runt of the litter
Now I'm looking down on 'em like these niggas quitters
Thought that they could try me well I'm very bewildered
I'm 'bout to burn a nigga like a calorie from a sit-up, lil' bitch
(Aye, aye, aye)

Aye, put 'em in pain
I got the melodies shakin' their cranium crazy
But this time man I'm not gon' sing
Your favorite line is you never got time for your friends
But the thing is that you not a friend
I set my foot in the states
I was sixteen years old from Jakarta, my prayer got range
Take the security out of my budgeting
I did not get here from playin' it safe

Dude I mean, I was having a lot of fun playing with Rubix cubes
And going to competitions and stuff, but

I realized I wasn't making any money off of it so
I guess you just gotta grow up
And put the toys down or whatever the fuck
