

Trespass

Rich Brian

Hello, Brian, this is your grandmother
Um, I don't know if you remember me, but
Do you have time to maybe
Meet up and touch base about
You know, talk about life maybe
And catch up you know

No, no, I don't know, don't be askin' me no more
I just close my door, put the "do not disturb" on
Don't you get too close, you know I'm an animal
Don't want to stay too long, I just get this shit to go
Slo-mo when I move so I do not lose control
Lomo camera every time I fuck your hoe
Airbnb's now, start to feel like second home
She on my dick now, this is just a second song

Actin' like a hooligan, I swear I think I'm fuckin' losin' friends
Somebody called me up and told me I'ma meet the president
I said okay then I proceed to leave my friends
And every citizen and everybody where I'm livin', aye-aye
Yes, lawd, bought some Bitcoin, was 'bout to buy some more
She a vegan eatin' seared 'loins, can't commit to love
I ain't Google, I don't give no answers, got the firewall
They keep askin' me about some things that they already know, I say

No, no, I don't know, don't be askin' me no more
I just close my door, put the the "do not disturb" on
Don't you get too close, you know I'm an animal
Don't want to stay too long, I just get this shit to go
Slo-mo when I move so I do not lose control
Lomo camera every time I fuck your hoe
Airbnb's now, start to feel like second home
She on my dick now, this is just a second song

Back in my hometown, got me feeling extra strong
Where I'ma go now, nobody gon' really know
Came with a new sound, just by sitting in my room
Smell hella good now, I been puttin' on perfume
Takin' pictures with the girls, I keep my hits up in my vault
My rhythm still left in the winter, think you gotta wear an extra coat
I'm Tarantino with the shit, directin' music videos
Man, I can sense your cluelessness, don't even interview me, hoe
Hoe, tell your man to go 'cause he been stickin' like some throat coat
I don't like your energy, I skate away like Frozone
You been hearin' things about me and you want to know, know
If it's true or false and then I hit you with the...

No, no, I don't know, don't be askin' me no more
I just close my door, put the "do not disturb" on
Don't you get too close, you know I'm an animal
Don't want to stay too long, I just get this shit to go
Slo-mo when I move so I do not lose control
