Yeah, ay, okay

Daylight (Daylight)

Know what she into, know what bae like (Know what bae like)  
Only fucked her twice, I don't know what she taste like  
I fuck her rough, she tell me play nice (But I can't)  
I got that Glock and it's on me, but this ain't play time  
I told my bitch if she want me, she gotta make time  
Don't listen to bitches, can't hear it through the grapevine  
Fake guys, they try, but they can't stop me 'cause they lyin'

I woke up said my prayers, smoked a blunt, I gotta stay high  
Came a long from breakin' in houses, I used to live the take life  
Turned my life around and I swear it made me feel good inside  
Yeah, ay, if you want it, you gotta get it  
If you started on the come up, you gotta finish  
Used to dream about some money, had it on my wish-list  
I was taking out change, dimes, quarters, pennies  
I don't know if he is a witness, I might have to kill him  
Every hundo that we get, you know we gotta conceal it  
I made falling off look cool 'cause I got these millions  
And I been that nigga since school, ask my auntie children  
They gotta feel this  
I was broke, now I'm rich, stuff a hundred thousand in my bitch pocket, she  
can't sit down, she a walking lick now  
And I don't blame my opponents, she got a thing for the homies  
I told bae don't wait on me 'cause I'll be home later by-

Daylight

Baby, hold on (Ay)

I wanted to fuck you, but you made a nigga wait for so long  
And I hate when you listen to your friends, they just need a lot to go wrong  
But I hate to be the reason you cry (The reason that you cry)  
If you want it, come and see me  
Nigga, we was gettin' money when we was peeweese  
I already fucked her twice, why she want a three-peat?  
She plugged me in that with work, so I call her RiRi  
I had to tell that bitch don't squirt, cause I know that's pee-pee  
All this water, I might drown, looking like a deep sea  
And she said she not gon' turn up 'til she hear that Chief Keef  
You say you a vegetarian, but still a freak, freak  
I'm gon' make you switch your diet up, gon' make you eat meat  
Addies got me paying attention, ho, but you can't teach me  
Told that lil' boy, better stop playing me with, I'm no fefe  
We been blinded by that money, that's the only thing we see

We gon' keep grinding 'til it's daylight  
Know what she into, know what bae like  
Only fucked her twice, I don't know what she taste like

I fuck her rough, she tell me play nice (But I can't)  
I got that Glock and it's on me, but this ain't play time
