

# All My Dreams

Richard Ashcroft

The lights are always on red  
The radio man says someone died and  
I turn around and I see your face  
That reminds me of you  
The blossom comes, it quickly goes  
Those animals they'd soon get old  
And nature finds a way to take it home  
Whoever you are

I need to touch your skin  
To know I'm alive

And all my dreams wrapped up in you  
All my dreams wrapped up with you  
All my dreams  
You're all my dreams

I've been there playin' a song  
Come on let's get up, get on  
Life's too shorts just to fade away  
Don't talk of gettin' old

You still got that style  
You got that grace and that smile now honey  
I wanna just live tonight  
And to find our way home  
I wave back to that special love  
The one you must call

And all my dreams wrapped up in you  
All my dreams wrapped up with you  
All my dreams  
You're all my dreams  
You're all my dreams  
You're all my dreams, now  
You're all my dreams  
And I'm gone my life

Ooh, it's alright  
'Cause it feels right
