

Circles

Richard Ashcroft

I love you even though I'm crazy You love me Though I'm foolish
and I'm lazy In the respect of all the things I've done Just let
them go now And all I wanna do Is take a hold now Of your lo
ving arms Of your loving arms

I love it when When the sun lights our bed All of you is sleepi
ng And there ain't a thought in my head And all I wanna do Is s
ay the words that need to be said All I wanna do Is say what ne
eds to be said Don't want you unfed with this feeling All I nee
d is you to know All I need is for you to know

And freedom never comes to the searchers Keep going round in ci
rcles And I don't care for your particular colour Mine's blue,
and what's the bother? Oh-oh-oh-oh-oh

All I really need is a friend All I really need is this to end
All I really need is your smile And all I really need Just a li
ttle more time
