

# Future's Bright

Richard Ashcroft

Everywhere I look  
I can see the faith  
Reflecting back at me  
And now I'm in this fate  
I'm shaking all the hands  
I'm doing all the plan  
I guess I'm in control  
And look how high it goes  
Look how high it goes

The future's bright  
It's looking good  
The wheels are turning now  
My words are understood  
Flesh pressed, the lights flash  
I know what's going now  
I ain't looking back

The future's bright  
Looking good  
The wheels are turning now  
My words are understood  
Flesh pressed, the lights flash  
I know what's going now  
I ain't looking back

Destiny is close  
I'm almost at the line  
Victory is near  
No mountains left to climb  
Power brings the choice  
Abuse or use  
I guess I'm in control  
Oh look how high I go  
Look how high I go

The future's bright  
Looking good  
The wheels are turning  
Now my words are understood  
Flesh pressed, the lights flash  
I know what's going now  
I ain't looking back

The future's bright  
Looking good  
The wheels are turning  
Now my words are understood  
Flesh pressed, the lights flash  
I know what's going now  
I ain't looking back

Icarus fell from the sky  
The plough still turned the field  
And a child still cried  
Oh when Icarus fell from the sky  
The plough still turned the field

And a child still cried

Everywhere I look  
I can see the faith  
Reflecting back at me  
And now I'm in this fate  
I'm shaking all the hands  
I'm doing all the plan  
I guess I'm in control  
And look how high it goes  
Look how high it goes

The future's bright  
Looking good  
The wheels are turning now  
My words are understood  
Flesh pressed, the lights flash  
I know what's going now  
I ain't looking back

The future's bright  
Looking good  
The wheels are turning now  
My words are understood  
Flesh pressed, the lights flash  
I know what's going now  
I ain't looking back

The future's bright  
Looking good  
The wheels are turning now  
My words are understood  
Flesh pressed, the lights flash  
I know what's going now  
I ain't looking back

Oh sometimes you just can't believe it  
Life got you back and you need it  
Oh yeah now let go  
All of those dreams I wanna know now  
Well I mean strife  
I know you mean all right  
Ain't nothing going  
And my life don't feel right  
Shake a hand now  
Better start buzzing now  
I make the news for ya  
I'm going big now
