

# I Get My Beat

Richard Ashcroft

**C D**

I get my beat with you

**C D**

When we see things through

**C D Em**

And I think about you all the time

Who the winners in the game were playing

I don't even think they know

Who the losers and how much their paying

I don't even think they know

I need to hear the truth

From the soul of you

Chase the moments we can share

Who the winners in the game were playing

I don't even think they know

Who the losers and how much their paying

I don't even think they know

**C D C D C D Em**

They got time

They got life

Take and take your time

I got to hear the sound of the morning song

It's the right place with your head

I'm blowing smoke and I'll feel so damn fine

I know you care

Who the winners in the game were playing

I don't even think they know

Who the losers and how much their paying

I don't even think they know
