

# That's When I Feel It

Richard Ashcroft

You got me to run away  
You got me full power  
You got me down the avenues  
That ticker tape shower  
You got me walking on the moon  
You got me full power  
You got me on the outer reach  
You got me in the tower

And that's when I feel it  
The spirit is moving  
Music in motion  
The melody's growing  
And that's when I feel it  
The spirit is moving  
The melody's growing  
You feel emotion now  
And that's when I feel it  
The spirit is moving  
Music in motion  
Love and devotion  
And that's when I feel  
The spirit is moving  
Music in motion  
With the melody growing yeah

If you're walking with me  
I'm walking with you  
If you're singing with me  
Then I'm singing with you

Cause I've been everywhere girl  
Searching for my answers  
Down the lonely avenues  
Like all those chances  
And in my darkest hour  
I'll look for you  
I think I heard an answer  
I couldn't ignore you

And that's when I feel it  
The spirit is moving  
Music in motion  
The melody's growing  
And that's when I feel it  
The spirit is moving  
The melody's growing  
You feel emotion now  
And that's when I feel it  
The spirit is moving  
Music in motion  
Love and devotion  
And that's when I feel  
The spirit is moving  
Music in motion  
With the melody growing yeah

If you're walking with me  
I'm walking with you  
If you're singing with me  
Then I'm singing with you

Yeah, yeah, alright

Cause that's when I feel it, ooh yeah  
That's when we need it, alright now  
That's when I feel it, when the rhythm hits  
That's when I feel it, oh when the rhythm gives  
That's when I feel it, oh when the melody  
Hits with a meaning, I swear I mean it  
That's when I feel it, it's like a gift for me  
That's when I feel it, like a god of Gethsamane now  
That's when I feel it, oh yeah yeah  
That's when I feel it, oh yeah yeah  
That's when I feel it, ooh yeah  
That's when I feel it  
That's when I feel it
