

# Third Eye

Richard Ashcroft

Ah, check out, check out  
You know you gotta  
The mystery  
The mystery school

Got me in my third eye, I couldn't think  
She's breaking bread, we're gonna drink  
Yeah, the blood of life, do it all night  
I'm feeling right, yeah, you got me

Moving on the floor now, ain't ever gonna stop  
Life's so short, man, I can't stop  
I gotta do my shit, get the fuck out of here  
Fly home and drink a German beer

Through my third eye, I got the sixth sense  
I knew that this was meant to be the end  
And the last and the Alpha  
And Omega, she was talking

And we got on buzzing and we got to thinking  
Thinking together, thinking about all  
A stormy weather through all the nights  
Bad blood and the idle fights

Yet it's a bitter, I know it's sweet  
You bought that shit but that weren't me  
And this is the bigger, this is the bolder  
Still the blues, still got soul

Gonna move you now, gonna move your body now  
Gonna move your body, mind, body and soul  
Oh, I'll move your body now  
I'll move your body now, mind, body and soul

Oh, just move your body now  
Just move your body now, mind, body, soul  
Oh, just move your body now  
Just move your body now, mind, body, soul

Oh, just move your body now  
Just move your body now, mind, body, soul  
Oh, just move your body now  
Just move your body now, mind, body, soul

Ooh, through your third eye, yeah, you got it right now  
You going through the tunnel, through the lights, yeah  
Hold onto the third eye and now you see the light  
Oh, you're coming to it straight right through the night

To the third eye and then you see the saints  
And when you get right there, you know it's all made up  
Through the third eye, I don't need a shrink  
Man, you need to think, this is some kung-fu shit

Yeah, the third eye and let it take you there  
To the rarefied air of the Mandarin

I got my beer in my hand, thinking 'bout my life plans  
Everything's right all day, all night  
Through my third eye, yeah

Sitting in the Mandarin watching all the circle  
Sitting in the Mandarin, I watch 'em go in circles  
Just sitting in the Mandarin and watch 'em go in circles  
Columbus circles

Gonna move you now, gonna move your body now  
Gonna move your body, mind, body and soul  
Oh, I'll move your body now  
I'll move your body now, mind, body and soul

Oh, just move your body now  
Just move your body now, mind, body, soul  
Oh, just move your body now  
Just move your body now, mind, body, soul

Columbus circle, just sitting in the Mandarin  
Columbus circle, yeah, just sitting here and pondering  
Columbus circle, oh, yeah, just sitting here and pondering  
Just sitting here and pondering, I'm watching them go blundering  
Along the circle, remembering the feeling

Gonna move you now, gonna move your body now  
Gonna move your body, mind, body and soul  
Oh, I'll move your body now  
I'll move your body now, mind, body and soul

Oh, just move your body now  
Just move your body now, mind, body, soul  
Oh, just move your body now  
Just move your body now, mind, body, soul

Oh, just move your body now  
(Columbus circle)  
Just move your body now, mind, body, soul  
(Just living in the memory)

Oh, just move your body now  
(Columbus circle)  
Just move your body now, mind, body, soul  
(Just living in the memory)

(Columbus circle)  
Oh, just move your body now  
Just move your body now, mind, body, soul  
(Just living in the memory)

(Columbus circle)  
Oh, just move your body now  
Just move your body now, mind, body, soul
