

Disappeared Planets

Richard Edwards

Where is my island?
Where is my moon?
And what the hell am i supposed to do
With another morning?

Where is my mountain?
Where is my sea?
And, what the hell am I supposed to be
If you don't need me?

There's been absence like losing a planet
They've been sayin you've lost your mind
I just tell'em you're either lost or you're found

Is this that movie?
Is this that scene?
And, what the hell am I supposed to breathe
If you don't love me?

Oh! There's been absence like losing a planet
They've been sayin you've lost your mind
I just tell'em you're either lost or you're found

Where is my map?
Where is my key?
And, how do I find far enough away
Where you can't find me?

Oh! There's been absence like losing a planet
They've been sayin you've lost your mind
I just tell'em you're either lost
I just tell'em you're either lost
I just tell'em you're either lost or else you're found
