

Doors

Richard Hawley

Here it comes
So say goodbye
To all you've known
Throughout your life cause

You opened up your mind's front door
You've opened up your mind's front door

You took a pill
To make you more
But has it worked
The way you thought of

You opened up your mind's front door
You've opened up your mind's front door
For sure
You've opened up your mind's front door

You've opened up your mind's front door
You've opened up your mind's front door
What for
What did you go and do that for
You've opened up your mind's front door
