

## Further

Richard Hawley

The ocean is calling  
As we're here working in the grime  
I've got a notion for that ocean  
We're getting closer all the time  
And we get further down the line

Feeling and dreaming  
'Fore they've still not made that a crime  
A silence is falling  
No need for words when all is fine  
And we're getting further down the line

Being and knowing  
People breathing in the sun  
The meaning of loving  
Is being right here by your side  
And we get further down that line

Yearning and hoping  
For time was sunlight in my eyes  
Around us a rainbow  
As we get closer all the time  
And we're getting closer every mile  
It brings us further down the line
