

Is There a Pill?

Richard Hawley

Is there a pill
That I could take
That would help me never feel that strange again?
Is there a crack
Inside this soul
That could change and show me it's alright to go?

So take me to the sun again
Oh take me to the sun again

Is there a pill
To untwist my heart
And help me sever feeling shame at being apart?
Then I would state
Upon my life
That I can't bear to feel this rage inside

So take me to the sun again
Oh take me to the sun again

So take me to the sun again
Oh take me to the sun again
