She Loves To Fly

Richard Lloyd

(Lloyd)
She loves to fly, and she loves the feelings when she comes dow
n,
I'll tell you why, i dig having her around, she likes lying dow
n in my bed,
And she tells me all the things that float through her head
Mmm yeah, we're on the same side
We're going to hold on tight, we're going to take you for a lit
tle ride,
She likes moving fast, and she wants it to last,
I'm going to make her blue, and i'll impart a little secret to
you,
She likes to feel that way, and she says it makes her feel like
She's heading down the highway
She loves rolling down the highway, and i'm glad that she's rol
ling my way,
And she's in time, to get a little high, i love kissing her on
her neck,
And she tells me that i know all the tricks in her book,
Mmm yeah, we're on the main line
We're going to hold on tight, we're going to take it for a litt
le ride
She likes moving fast, and says she wants it to last,
I'm going to make her blue, and i'll impart a little secret to
you
She likes to feel that way, and says it makes her feel like
She's heading down the highway
She loves to fly, i can see her floating through the moonlight
She loves to cry, and she says it makes her feel alive
She loves to fly, and i can grab her just around midnight
She loves to fly etc...
