

Only A Memory

Richard Marx

I'm in the middle of a fever dream
Familiar faces I have never seen but you
Burn through
You take my hand and start to pull me near
But when I reach you, you just disappear into
Something new

I see a vision in the neon lights
But it's only a memory, only a memory
The words you whispered wake me up at night
But it's only a memory, only a memory

It's always sunny when I'm craving rain
And I always trade the solace for the pain, I do
Because of you
Hungry for just a little peace of mind
But all I can taste is what you left behind for me
Only me

Yeah, I see a vision in the neon lights
But it's only a memory, only a memory
The words you whispered wake me up at night
But it's only a memory, only a memory
And I wanna turn back time
Yeah, I wanna hit rewind
I know I'm never gonna be alright
'Cause it's only a memory, only a memory

I see a vision in the neon lights
But it's only a memory, only a memory
The words you whispered wake me up at night
But it's only a memory, only a memory
And I wanna turn back time
Yeah, I wanna hit rewind
I know I'm never gonna be alright
'Cause it's only a memory, only a memory
