

## By Touching

Richard Wright

By touching, they'll illuminate it, in the box, with  
the light-thing  
Used to be glad  
I heard her through your feelings  
Seemed the perfect situation  
Feeling different  
Seems they're moving in  
Circumstantial complication  
Don't you need it  
Don't you miss the closeness  
Don't you feel it  
Something's come between us  
By surviving  
Revitalising  
We'll stop the fighting  
Don't you need it  
Don't you miss the closeness  
Don't you feel it  
Something's come between us  
A new direction  
A different understanding  
An electric education

While the system  
Program-close your eyes in  
You forgot our desperation  
Don't you need it  
Don't you miss the closeness  
Don't you feel it  
Something's come between us  
By surviving  
Revitalising  
We'll stop the fighting  
By touching  
Used to be glad  
I heard her through your feelings  
Seemed the perfect situation  
Feeling different  
Seems they're moving in  
Circumstantial complication  
A new direction  
A different understanding  
An electric education  
While the system  
Program-close your eyes in  
You forgot our desperation  
By touching
