Slow Down

Richie Havens

The faces in my sleep
Are buried very deep
They only surface when I run in circles

As I go 'round and 'round I cannot make a sound I hear a voice And it sounds like a miracle

Slow down, slow down
You know that everything's a showdown
Slow down

The echoes in my mind
They're working overtime
I cannot keep them all from testifying
A captivating smile
Really not my style
The pace is picking up there's no denying

Slow down, slow down
You know that everything's a showdown
Slow down

The bar is closed tonight Everybody's out of sight Such a quiet light When all Hell is breaking

But I keep moving on Until the night is gone I've got just one more chance And that chance I'm taking

Slow down, slow down
You know that everything's a showdown
Slow down

Slow down, slow down
You know that everything's a showdown
Slow down

Slow down, slow down
You know that everything's a showdown
Slow down
