

# You'll Never Know

Richie Havens

You'll never know  
You're walking down the street  
You see faces you've never seen before  
You realize  
That most of them you'll never know  
And that's the way it is

We do the dance  
We dangle on a string  
And make believe that everything is real  
Lost in a trance  
They make us all dance alone  
And that's the way it is

Stand against the wind  
Crying in the rain  
Let the games begin  
Pain is always, pain is always pain  
We will let time tell us  
That that's the way it is

Do you believe  
That with just one little smile  
This whole world  
Has changed a thousand times  
Yet in a breeze  
This whole world can be gone  
Can't you see there's something wrong  
Can't you hear it in this song  
I believe that's the way it is  
I believe that's the way it is  
I believe that's the way it is
