

Come On Free

Richie Kotzen

Come on free O' that's the feeling that's how you stay alive
Come on free what do you believe in that's gonna start the fire

Now I ain't ever gonna be down on what you feel, down on the thoughts in your head

All I ever wanna be is somebody that you can trust, somebody you love

Now I don't have to walk the fence, I'm breaking off the chains
Ever since we've been together

I'm gonna give you all I can, help me with my faith don't hold back on me now

Come on free O' that's the feeling that's how you stay alive
Come on free what do you believe in that's gonna start the fire

Now you never wanna be down on what you feel, down on something somebody said

All you ever gotta do is believe in yourself and you're there,
It's all in your hands

You don't have to walk the fence or worry what they say as long as you've got something together

It's a such funny little game that people wanna play, but it ain't no game when you've got your faith

Come on free O' that's the feeling that's how you feel alive
Come on free what do you believe in that's gonna start the fire

Come on free once you're free once you're free O' that's the feeling that's how you stay alive

Free once your free once your free what do you believe in? It's how you stay alive

Come on free O' that's the feeling that's how you stay alive
Come on free what do you believe in that's gonna start the fire
