Encounter

Richie Kotzen

I know that in the end, when it's over
I will survive
But now, I'm left here with nothing but the memorie of you
I can go on, but the sorrow still lives in my heart
Believe, I will be with you again

Thoughts inside my head
Of what we used to be
It's all that I feel
All that I feel

Can't you see?
Can't you see that
I wanna get back where we started
It's hard for me to live without you next to me
Can't you see?
Can't you see that
I wanna get back where we started
Living without you is getting hard on me

Believe
All my days are longer since you've gone away
and I, I can't control the way you feel about us
Maybe in time the feelings you have will change
Believe
I wish the things could be different

Thoughts inside my head
Of what we used to be
It's all that I feel
All that I feel

Can't you see?
Can't you see that
I wanna get back where we started
It's hard for me to live without you next to me
Can't you see?
Can't you see that
I wanna get back where we started
Living without you is getting hard on me
