Feed My Head

Richie Kotzen

I don't wanna hear about the false truth that you're preachin'
I'm not tryin' to hear all of your lies
Quit telling me which way to go
I'll jump too high, I'll fall too low
I'm happy livin' my own life
In a satisfied situation ain't no confrontation
That's the way, tha't's the way I like it
I got my education livin' my own life and facing
All the choices were mine

Feed my head - seal my fate
Drown my fear and fade away
Feed my head - my escape
Leave my heart and soul to take

Keep feedin' your own ego
with your shameless competition
It's the money and the power that you like
An allegiance to hipocrisy and lies you don't believe in
Wile you brothers lay there dying in the street
In and ideal situation no room from confrotation
Everybody's living their own lives
But you can't help yourself
from making trouble and aggravation
I don't wanna close my eyes

Feed my head - seal my fate
Drown my fear and fade away
Feed my head - my escape
Leave my heart and soul to take
