

# Go Beyond The Time

Richie Kotzen

You keep searching for your path, but it's not so clear  
You keep living in your past till you disappear  
Every second that you're gone I wish you were here  
I know that you may have doubts, but put away your fear

Searching to try to find a better way  
Running but you'll never get away

Go beyond the time to a place that's yours and mine

I know a place we can go  
I will take you there  
We can be together  
Baby don't be scared  
Put your hand in mine  
We'll go through space and time  
Put your fear behind you  
Don't you want to go beyond the time?

I'll never forget your face even if I try  
I keep thinking back in time before you were mine  
Am I dreaming, am I slipping deep into my mind?  
Or are you the question to the answer of all time?

Searching to try to find a better way  
Running but you'll never get away

Go beyond the time to a place that's yours and mine

I know a place we can go  
I will take you there  
We can be together  
Baby don't be scared  
Put your hand in mine  
We'll go through space and time  
Put your fear behind you  
Don't you want to go beyond the time?
