

# Insomnia

Richie Kotzen

Lying in my bed  
A midnight gaze  
This is the drill  
Ride with me

I've got those hooks inside of me  
They cut me deep but I won't bleed  
It's reading like a mystery  
I can't fall asleep  
This ain't no fever dream

I sure hope you're doing all right  
Cuz we about to go all night  
Oh insomnia ain't nobody dreaming now  
Oh you better hold on tight  
Cuz we about to go all night  
Oh insomnia I'm gonna make you work for me

A heavy head  
In purple haze  
A tested will  
Die with me

I've got those hooks inside of me  
They cut me deep but I won't bleed  
I'll take on all your misery  
I've been through what you feel  
I hear the silent scream

I sure hope you're doing all right  
Cuz we about to go all night  
Oh insomnia ain't nobody dreaming now  
Oh you better hold on tight  
Cuz we about to go all night  
Oh insomnia I'm gonna make you work for me  
I'm about to lose the rest of my mind  
So I'm gonna bet on investing my time  
Oh insomnia ain't nobody dreaming

The world about to blow up anytime  
So I'm gonna keep on throwing them dice  
Oh insomnia gonna make you work for me  
Woah I'm down from the mountain where I was seeing it all  
And I ain't trying to save me no  
I decline the notion to fight this  
So I'll just stay awake

I sure hope you're doing all right  
Cuz we about to go all night  
Oh insomnia ain't nobody dreaming now  
Oh you better hold on tight  
Cuz we about to go all night  
Oh insomnia I'm gonna make you work for me

I sure hope you're doing all right  
Cuz this could maybe be the rest of your life  
Oh insomnia I'm gonna make you work for me

Oh you better hold on tight  
Cuz we about to go all night  
Oh insomnia I'm gonna make you work for me
