

## OMG (What's Your Name?)

Richie Kotzen

Bored by the day to day, I'm gonna fly then drift then fall away  
Don't you bother waking me up if you not gonna thrill me  
How you gonna justify the world if you can't justify today  
Born like a baby in the cradle, burned like judas did to Jesus  
You know you better learn to laugh it off before it gets too deep into ya... Yea

I say o' o' o'  
No but I'm sinking...

O' my god what's your name?  
I think I'm putting my hand up on the bible because I feel like  
I'm born again  
O' my god I hope she saves, cause I believe that she's the key  
to my survival  
You say why? I don't know I just say it again

Out in the midnight in the valley, war is the feeling on the street  
I got a little bit of heat on my back, I guess I'm gonna have to use it

I say o' o' o'

O' my god what's your name?  
I think I'm putting my hand up on the bible because I feel like  
I'm born again  
O' my god I hope she saves, cause I believe that she's the key  
to my survival  
You say why? I don't know I just say it again
