

## These Doors

Richie Kotzen

Sometimes i feel like it's all in vain  
But that's the song they sing  
I'm on the road out of loss to gain  
Been educated by some bad things

Give it up give it up yea let them take it away  
Put em up come and offer up your best defence  
Give it up give it up yea make them break make them pay  
I'm gonna let you waste your time  
Till nothing's left to grind

And in the end I'll be slipping away into a better place  
You key the doors that you slam in my face  
But these doors only open up from inside  
Inside you'll be locked out for a while

Gaining your strength through the games you play  
A pig in mud you'll stay  
Keep throwing knives but i won't engage  
We'd both get dirty but you'd like it

Give it up give it up go ahead and take it away  
Put em up let em offer up their best defence  
Give it up give it up yea make them break make them pay  
I'm gonna let you win this time  
You've opened up my mind

And in the end I'll be slipping away into a better place  
You key the doors that you slam in my face  
But these doors only open up from inside  
Inside you'll be locked out for a while
