

# White Noise

Richie Kotzen

Late in the evening, I'm watchin' my feed  
I'm fillin' my eyes with nothin' but greed  
Up in the mornin', my eyes are all red  
Turn on the news, somehow we ain't dead

Yeah, the frequency cracking drives me out of my head  
Loosely distracted by all they said  
These people wearin' balls and chains  
While I'm wearin' justice change

So, can you hear me through the white noise?  
Is my message gettin' through?  
Ah, yeah, yeah  
Are you gonna make the right choice?  
Time to make up your mind before it happens to you

They wanna close my spirit, kill my joy  
Can you hear me through the white noise?  
Yeah, I'm hearin', oh  
I wanna drink my Jack, bring back my poise  
Is my message gettin' through?  
Yeah, I hear you through the white noise

Out in the ether, somewhere in time  
Watchin' my city succumb to the crime  
There's revolution, conspiracy's rife  
Take over my dreams, take over my life

So, can you hear me through the white noise?  
Is my message gettin' through?  
Oh, I'm hearin' you clear  
Are you gonna make the right choice?  
Time to make up your mind before it happens to you

Oh, close my spirit kill my joy  
Can you hear me through the white noise?  
Yeah, I'm hearing you well  
I wanna drink my Jack, bring back my poise  
Is my message gettin' through?  
Yeah, yeah, I can hear you through the white noise

Ah, can you hear me through the white noise?  
Is my message gettin' through?  
Oh, are you gonna make the right choice?  
Time to make up your mind before it happens to you

Oh, they wanna close my spirit, kill my joy  
Can you hear me through the white noise?  
'Cause I'm talkin' to you  
I'm gonna drink my Jack, bring back my poise  
Is my message gettin' through?  
Yeah, I can hear you through the white noise  
Can you hear me through the white noise?  
Yeah
