

## You Know That

Richie Kotzen

People keep on talkin',  
talkin' on how you're supposed to be  
Ain't no better way to bring you down  
It don't matter what you say  
sometimes you're gonna lose  
But you'll always feel good inside  
as long as you stay true

Do what you're gonna do  
if you're gonna do it baby  
Don't look back and wonder  
Say what you gotta say  
If you're gonna say it  
Let'em know how you really feel  
Live how you wanna live  
Ain't nobody who can keep you off your dreams  
You know that, you know that's right...  
The choice is up to you

You need a little pride to keep you goin' strong  
And a little fire so you can turn it on  
You never wanna hide who you really  
You know that, you know that's true,  
Now do what you gottta do  
Everybody's judgin' judgin'  
Like they know what's right  
But they never know what's in your heart  
Everybody want to feel something they never felt  
But so many don't know where to start

You need a little pride to keep you goin' strong  
And a little fire so you can turn it on  
You never wanna hide who you really  
You know that, you know that's true,  
Now do what you gottta do  
Everybody's judgin' judgin'  
Like they know what's right  
But they never know what's in your heart  
Everybody want to feel something they never felt  
But so many don't know where to start
